SYNTHETIC TEST DOCUMENT - NO REAL PERSON, COMPANY, OR TRANSACTION

Classifier evidence hints

The document records goods received or delivered, with quantities and condition notes rather than a payable total.

| Control                | Synthetic value                                                     |
|------------------------|---------------------------------------------------------------------|
| Ground truth category  | delivery_note                                                       |
| No real data statement | All names, addresses, IDs, amounts, and transactions are fictional. |
| Expected action        | Classify from document text, not from filename.                     |
| Filename leakage check | The PDF filename intentionally does not reveal this category.       |

Audit note: this file was generated as part of an expanded DocWeave local test corpus. It is suitable for demonstrations of classification, review proposals, rename approval, and restore lineage. It is not a real business record.
